Channel Letters

Channel letters are custom-made metal or plastic letters commonly used in exterior signage on public and commercial buildings, and often internally illuminated

- ❖ The most common channel letter signs are LED front-lit
 - ❖ Halo channel letters (also called back-lit or reverse channel letters signs) work best against light-colored stucco, aluminum or concrete.

Window Perfs

- ❖ Advertising/Artwork faces outside
- ❖ See through from inside
- ❖ Holes let light pass through
- ❖ Sized to fit any window or door

Tents & Canopies

- ❖ Various sizes and styles to choose from
- ❖ Portable and lightweight

Digital Displays

- ❖ Digital displays use technologies such as LCD, LED, projection and e-paper to display digital images, video, web pages, weather data, restaurant menus or hours of operation.

CAPITAL RELAMPING & SIGNS provides residential and commercial electrical and lighting services throughout the National Capital region and surrounding areas, including Gatineau, Aylmer and any other parts of the parts of the Outaouais region.

Reliable Technicians

Capital Relamping & Signs specializes in residential and commercial services. Whether you are installing or removing a sign, you can rest assured knowing the professionals will take care of everything for you from start to finish. We get the job done right.

Flexible Services

Lighting repairs and services are provided on time and as required, 24 hours a day.

This includes:

- Repairs, Inspection and replacement of worn out lamps, ballasts and sockets in all fixtures.
- Repair/Replacement of damaged poles, installation of new poles, supplying service, trenching, etc.
- Service and installation of Daktronics and Watchfire price changers for gas stations.
